Approved Policies

Effective January 1st, 2018, the Captive Bureau will allow two options for captives to add or remove lines of coverage during the policy year:

✓ **Option #1**

“Approved Policies Library” can be filed with the Department. In this case, no Business Plan Change Request will be required for adding or removing lines of coverage during the policy year. Rather, each March 1st, the captive insurer has to report all lines of coverage written at any time during the previous calendar year on their Annual Report. Year to year changes must be reported on the Annual Report Premium Schedule showing the coverage effective dates and policy limits.

OR

✓ **Option #2**

If the Captive Manager chooses not to have an “Approved Policies Library” with the Department, prior approval will be required for adding or removing lines of coverage during the policy year.

An official business plan change request will have to be submitted with red line Business Plan and draft policies for review and approval. The captive insurer will have to report all lines of coverage written at any time during the previous calendar year on their Annual Report. Year to year changes must be reported on Annual Report Premium Schedule showing the coverage effective dates and policy limits.

NOTE:

Per section § 6922 Title 18 of the Delaware Code , Department must receive notice of all deletions or additions of mandatory coverages such as Workers' Compensation, Commercial Auto Liability, and any other coverage mandated by law. Adding or removing these coverages still need to be submitted as a Business Plan Change request for Department's approval.

Dormant Status

Per amended section § 6902, Title 18 of the Delaware Code, if captive did not contract for, or collect, any direct premium, assumed, and any reinsurance premium for an entire calendar year from the date of request, they may submit a business plan change request for a dormant status approval.
